I am selling a Sony TC-WE305 Dual Cassette Deck with the ability for high-speed dubbing. It has been tested and works well, and is mostly clean and otherwise in good physical condition. It does have some minor superficial surface scratches, but that doesn't affect its performance. I would like to get \$60 OBO. I am open to negotiation. Serious Inquiries only. POOS. Cash only, no negotiating in person, and I'd prefer to meet by my house in St. Ann. Respond to this post or inbox me if interested. Thanks a lot!
